Honorable Judge Kaplan -

I do not know, nor am I related to Sam Brinkman-Fried, but am writing to you about his upcoming sentencing.

Mr. Brinkman-Fried certainly seems to be autistic and doesn't seem like a prison sentence would be of no benefit to anyone.

It isn't like he set out to commit fraud like Bernie Madoff, and the people who lost money with him are on the edge of legal law themselves. Someone who commits murder gets a lesser prison sentence than what is being sought for Mr. Brinkman-Fried.

Instead of a prison sentence can he be directed to teaching high school math instead? Putting his talent to positive use.
